

BatchMaster ERP for Cement

Streamline operations. Assure quality. Concrete profits.

BatchMaster ERP for Cement is a full-featured tailor made IT solution that helps manufacturers to meet the constant challenges of optimum quality, lower costs and shorter time to market. With every industry specific feature, BatchMaster ERP supports every aspect of production: preparing raw materials, raw milling, pyroprocessing, cooling & storing clinker, packing and loading. Handling sales, procurement, lot traceability, formula management, assuring quality, R&D, estimating profitable costing, etc. are the other profit concreting areas of BatchMaster ERP.

BatchMaster ERP for Cement

Detailed analysis and in-depth study of the industry is the foundation on which BatchMaster ERP is designed. Thus, it includes every required feature like:

- Formula Security with Revision Controls
- Easy Reformulation Options for Product Development
