

BatchMaster ERP for Primer

Make your business your customers' prime choice

Primers, which are applied before paint as the base coat to improve its absorption and create a protective barrier to extend the product's longevity, have their application in many industries like auto, aerospace, machinery, home appliances, electronics, wood furniture etc. In manufacturing a product with such wide a scope and volume, process complexities are bound to happen.

But BatchMaster ERP eases out all the complexities involved in the process. Its superior features allow Primer manufacturers to manage formulas, plan raw material procurement, meet regulatory compliances, keep pace with the changing technological trends and production methodologies, maintain consistency in physical properties, keep a check on the costs et al.

BatchMaster ERP for Primer

Its robust features that bring all the business operations seamlessly on one page, are as follows:

- Formula Security with Revision Controls
- Allows managing multiple processes simultaneously
- Efficient inventory management and product handling
- Research & Development for creating better chemicals
- Easy Reformulation options for Product Development
